REREGISTRATION OF AN EXPIRED LICENSE OF TWO YEARS OR MORE

When a license has expired for two years or more, it is required for the applicant to complete a new, updated application and submit a \$265 re-registration fee. This includes completing Section 4, the Engagement Section from the time you have expired thru the date you send in your new application. The Board requires to be apprised of the applicant's activity during the lapse of time since the last renewal of the individual's license. You are also required to provide a supervisory reference for each activity for this lapse of time. If you have examined in another State, you must have a verification form sent from that State directly to the Board.

The re-registration will be valid for the remainder of the year reregistered, plus the following year.

You must earn all delinquent Continuing Professional Competency (CPC) units. However, if the total number required to become current exceeds thirty (30), then thirty (30) shall be the maximum number required. *CPC credits must be reported for the past two years.*

If you hold a dual license (PEPLS) you are required to have a minimum of ten (10) CPC hours in each profession, with a combined total of the required thirty (30) CPC units.

A maximum of fifteen (15) CPC units may be carried forward into the subsequent renewal period.

All forms can be found under the "applications" and "renewal" links on the website. If you have any questions after reviewing this form, please contact the Board Office for further clarification.
